## JOVE CONTEST DEADLINE, OFS PROMOTION AND WORKSHOP REGISTRATION

### WIN A JOVE PUBLICATION GRANT - DEADLINE 4 WEEKS AWAY

In partnership with the *Journal of Visualized Experiments (JoVE)*, Plexon is proud to offer neuroscience researchers the opportunity to publish their research utilizing the OmniPlex® Neural Data Acquisition System in a peer reviewed format with text and video - a \$4,200 value!

Applications can be found online, and are due with an abstract on March 13. JoVE will post the publication via open access to all. Historically, JoVE publications referencing Plexon products have enticed more than 10,000 views in the first year alone! Please direct any questions and/or applications to [publications@plexon.com](mailto:publications@plexon.com).

### EXCEPTIONAL OFFLINE SORTER™ PROMOTION

WOW! This has been popular since we announced it on January 30th! Don't miss this very rare deal on the industry's most popular offline spike sorting program cited by more than 800 scientific publications! Plexon is offering these two limited-time, 30th Anniversary specials for Offline Sorter (OFS) version 3:

- Receive one free additional license key (3 keys instead of 2) with the purchase of an OFS v3 package saving \$2,000+, or
- Purchase the standard OFS v3 package with 2 license keys for a special price saving almost \$1,000.

The OFS v3 30th Anniversary promotions are effective for a limited time only. Email [info@plexon.com](mailto:info@plexon.com) to request a quote or place an order.

### REGISTRATION IS NOW OPEN FOR THE ANNUAL WORKSHOP

We are encouraged by all of the interest in the 4th Annual Plexon Neurophysiology Workshop – even before registration opened! Looks like we will have attendees from Australia, Europe, China and - of course - the US already. A new webpage now details topics, important information and includes the Registration Form. To ensure an extensive, hands-on experience, registration is limited to 40 people. This year, several seats will be set aside for MAP System users.

April 29 - May 2, 2013  
Dallas, Texas, USA  
[workshop@plexon.com](mailto:workshop@plexon.com)

Looking forward to seeing you there!
